Professional Summary

System Administration and DevOps graduate with a Bachelor of Science in Applied Technology (Magna Cum Laude, GPA 3.95) and a strong interest in Linux, cloud infrastructure, automation, containers and cybersecurity.

Experienced through university projects and an extensive home lab building Linux servers, Active Directory environments, Docker, Kubernetes, Azure, VMware, Ansible and Puppet. Passionate about creating reliable, secure and automated infrastructure while continuously learning new technologies.

CompTIA Security+ certified and fluent in Norwegian and English. After living in Longyearbyen for approximately 20 years, I am looking to continue my career in Northern Norway within infrastructure, cloud operations and DevOps.

Core Competencies

- Linux & Windows Server Administration
 - Azure & Microsoft 365
 - Docker & Kubernetes
 - VMware, Hyper-V & VirtualBox
 - Infrastructure as Code (Ansible, Puppet)
 - Python Automation & Scripting
 - Networking & Active Directory
 - Cybersecurity ([CompTIA Security+](#))
 - Git & GitHub
 - Documentation, Troubleshooting & Team Collaboration
-

Technical Projects

Personal Infrastructure Home Lab

- Built enterprise-like virtual environments using VMware, Hyper-V and VirtualBox.
- Deployed Linux servers and Active Directory domains.
- Implemented Docker workloads and Kubernetes clusters.

- Automated configuration management using Ansible and Puppet.
 - Practiced Git-based workflows and infrastructure version control.
 - Explored Azure cloud deployments and networking.
 - Developed Python scripts for automation and administration.
 - Performed security testing and hardening in isolated lab environments.
-

Education

Brigham Young University--Idaho

Bachelor of Science in Applied Technology (2024)

- [Magna Cum Laude](#)
 - [GPA: 3.95/4.00](#)
-

Certifications

- [CompTIA Security+ SY0-701](#)
 - [Norwegian Authority certification of title](#)
 - [TestOut PC Pro](#)
 - [TestOut Network Pro](#)
 - [TestOut Switching Pro](#)
 - [Certificate in Computer Programmer](#)
 - [Certificate in Computer Support](#)
 - [Certificate in System Administration](#)
-

Technical Skills

Cloud & Infrastructure

Azure, Microsoft 365, Active Directory

Operating Systems

Linux, Windows Server

Containers & Virtualization

Docker, Kubernetes, VMware, Hyper-V, Oracle VirtualBox, Vagrant

Automation

Python, Ansible, Puppet, YAML, Git, GitHub

Networking & Security

TCP/IP, Switching, Network Troubleshooting, Kali Linux, Metasploit, Security+

Databases

PostgreSQL, MySQL, MariaDB, SQL

Programming

Python, Java, JavaScript, R, HTML, CSS, PHP, Ruby, SQL

Data & AI

Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Plotly, ggplot2, Altair, Seaborn

Personal Strengths

- Analytical problem solver
 - Continuous learner
 - Team-oriented
 - Structured and organized
 - Strong communication skills
 - Customer-focused mindset
